Digital Transformation

Topic:

Digital Participation Youth Participation /
Activism and Decision Making

Youth goals:

[Information & Constructive Dialogue](#)

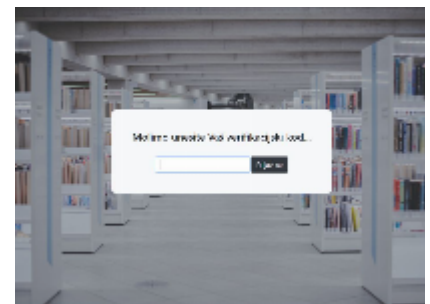

Erasmus+

You cannot do it, you are too young!". Not even this kind of negative attitude could discourage Suad. In 2021, the 18-year-old boy from Bosnia and Herzegovina came up with a simple but brilliant idea. He developed an application that modernised his schools' library catalogue and library management system, saving many hours of work for the librarians.

What is Participation for you?

"For me participation is a wonderful process during which I can learn more about people, discover different perspectives, ideas and ways of working. Through this I develop myself."

Suad Kucalović PROJECT COORDINATOR

Wow!

Entrepreneurship, determination and creativity at its best! Not even negative comments could discourage Suad, who built this cool and super useful app in one month, with no budget. He was still a high school student but was able to manage everything alone: planning, developing, communicating his idea and introducing the outcome to his community.
