MeetEU is an initiative that promotes engagement in European topics and was born around the 2019 European elections. It emphasises inclusive participation in European events and is welcoming of all backgrounds. The events offer casual English discussions and allow direct conversations with speakers. Using platforms from Instagram to Discord, MeetEU reaches a broad audience, maintaining a core group while continually attracting newcomers.

What is Participation for you?

“Participation is about actively sharing and discussing opinions. It’s not limited to formal roles or politicians; it’s about influencing a diverse group. Simple acts, like joining a meeting or engaging on social media, count! Everyone has expertise, and sharing it can make a difference. The goal is to unite opinions and approach decision-makers with shared ideas.”

Moritz Wille PROJECT CO-PRESIDENT

Wow!

The digital nature of MeetEU events allows them to reach an audience that might not participate in in-person events. This is especially important for individuals who might be limited by certain personal backgrounds or health situations.
